Objective

I write about technology and develop front-end applications. Throughout my life, I have strived to learn and grow. No matter my age or my position, I aim to give my full effort. I want to be of service to the environment, get a professional job, and stand out as a singer. Dedication is my greatest strength.

Work Experience

Economize.cloud • Technical Writer

August 2022 - November 30th, 2022

- The most important thing I learn in Economize is work ethics.
- My role in Economize is Technical Writer. I write on tech topics like Google Cloud Platform, BigQuery, etc.
- Read my published articles [here](#)

The Bug Community • Content Writer

November 2021 - February 2022

- Bug Community is the very first organization where I worked as a content writer.
- I wrote social media content, blogs, articles, contributed in web development.
- Bug Community taught me how to deal with clients, negotiation power, multi-tasking.

Medi-Caps University ACM Student Chapter • Executive Content Writer

October 2021 - August 2022

- As a newbie in college, I was overwhelmed when I got a chance to be a part of MU-ACM. I was recruited as a content writer.
- While researching current scenarios, I wrote several blogs, social media captions, and long WhatsApp messages for invitations.
- I learned how to express your working issues in front of team.

Skills

Soft Skills: Time Management, Critical Thinking, Writing, Research, Communication Skills, Presentation, Good Listener.
